Policy on energy use in classrooms

February 2019

Why do we have this policy?

We want to save energy so that we don't add to pollution. Also by saving energy we will save money.

What do we need to know?

We should only use lights, computers and projectors in our classrooms when we really need to.

What do we need to do?

If we notice that a class is not turning off their lights then we will remind the energy monitors for each class. They are:

Duckling – Rose and Poppy

Dragonfly – Bonnie and Jack

Otter – Maya

Kingfisher – Seany and Zara

Any pupil or adult can also turn off equipment if it isn't being used. Pupils should check with adults first.

Who is responsible for making sure this happens?

Everyone in the school is responsible for this. In particular, the energy monitors should check their classes at the end of every lesson.

When will we check this policy to see if it is working?

Every two weeks we will check the classrooms at lunchtime.
